### **IMPORTANT INFORMATION ABOUT LEAD IN YOUR DRINKING WATER**

Borough of Stockton has found elevated levels of lead in drinking water in some homes/buildings in our community. Lead can cause serious health problems, especially for pregnant women and children 6 years and younger. Please read the following notice [insert link to Public Education Notice] closely to see what you can do to reduce lead in your drinking water and to learn what Borough of Stockton is doing to address this problem.

Call us at Borough of Stockton (609)-397-0070 for more information Date Nov 17, 2014
